2nd European Course on Next Generation Carbon Fibres Processing

The FP7 Project NEWSPEC invites to participate to the 2nd European Course on Next Generation Carbon Fibres Processing. The Summerschool - organised in collaboration with Warrant Group Srl, Freni Brembo SPA, Automobili Lamborghini Spa, and Dallara SPA - is open to professionals, researchers and students and will be held in Italy, 12 to 17 June 2016.

The screenshot shows the CORDIS website interface. At the top right, there are links for 'About CORDIS', 'Contact', 'Advanced Search', 'Legal Notice', and 'English (en)'. The main header features the European Commission logo and the CORDIS logo with the text 'Community Research and Development Information Service'. Below the header is a navigation breadcrumb: 'European Commission > CORDIS > News and Events > 2nd European Course on Next Generation Carbon Fibres Processing'. A search bar is present with a 'Search' button and a 'Sign in' link. A menu bar includes 'NEWS & EVENTS', 'PROJECTS & RESULTS', 'RESEARCH*EU MAGAZINES', and 'PARTNERS'. Below the menu, there are icons for 'Download', 'Print', 'Booklet', and 'My booklet (0)'. The main content area displays the title '2nd European Course on Next Generation Carbon Fibres Processing' and the contributor 'Contributed by: Warrant Group Srl'.

The Consortium of the FP7 Project NEWSPEC (www.newspeg.eu) cordially invites professionals, researchers and students to participate to the 2nd European Course on Next Generation Carbon Fibres Processing. The Summer School will be held in various locations in Italy from the 12th to the 17th of June 2016, with keynote presentations, visits to distinguished companies and social events.

The focus of this 2nd course will be on a practical training on CF composites manufacturing, both polymeric and ceramic composites.

The practical lessons will be carried out in collaboration with some distinguished partner industries such as: Freni BREMBO SpA, BREMBO SGL Carbon Ceramic Brakes, Petroceramics SpA, Automobili Lamborghini SpA and Dallara SpA.

During the Course, the attending researchers and scientists will have a unique opportunity to visit the industrial laboratories, as well as the production sites, and interact with outstanding industrial experts in the field.

NEWSPEC Summer School 2016 wants to be an excellence meeting point for both academic and industrial researchers, giving a chance to exchange knowledge and new ideas for next generation Carbon Fibre materials.

Registration is open and available at: <http://www.newspegsummerschool2016.eu/registration-form/>

Detailed information on programme, venue, accommodation and fees is available at: <http://www.newspegsummerschool2016.eu/>
